Commanding Officer
Naval Air Technical Data and Engineering Service Command (NATEC)
NAS North Island
P.O. Box 357031
San Diego, CA 92135-7031

Technical Publication Deficiency Report Point of Contact:

Commander Code 47HJ00D
NAVAIRWARCEN Weapons Division
1 Administration Circle
China Lake, CA 93555-6100

- **JSOW Navy Ammunition Logistics Code (NALCs) and National Item Identification Numbers (NIINs)**

TABLE 1-1. Designators/NALCs/NIINs.

Designator	NALC	Part number	NSN	S/W version	Notes
AGM-154A	PFB8	4211053-1/2/3	1410-01-443-3029	6.0.1A	1
AGM-154A	WF12	4211009-2	1410-01-462-6500	6.1	2
AGM-154A	WF26	4211027-2	1410-01-4654873	8.1	3
AGM-154B	WF25	4211028-2	1410-01-465-4863	8.1	4
CNU-575/E	BWFE	3181AS83000	8140-01-433-7608		

Note 1. LRIP 1 and 2 hardware.

Note 2. LRIP 2 hardware delivered with explosive atmosphere (EA) battery.

Note 3. FRP hardware.

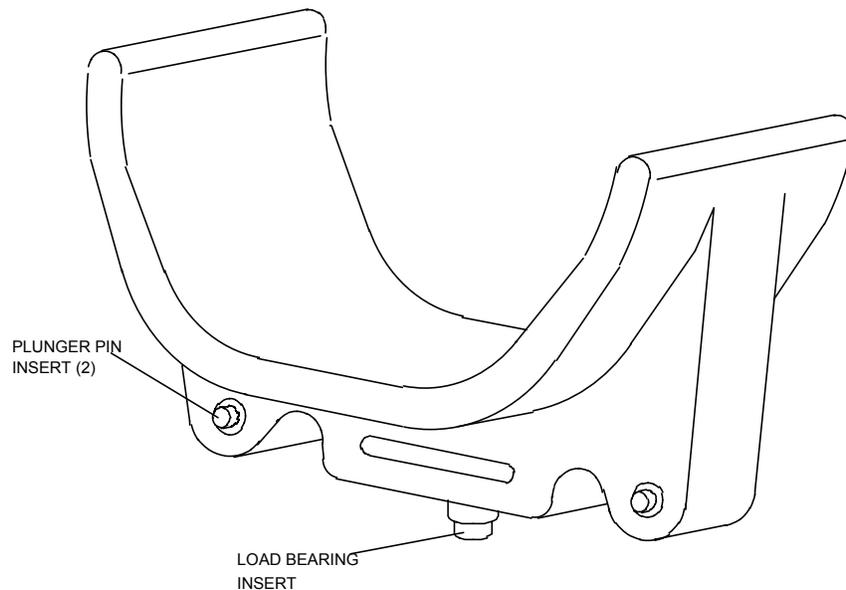

Note 4. LRIP production lot hardware.

- **JSOW Peculiar Support Equipment**

Peculiar support equipment (PSE) consists of the JSOW transport adapter (ADU-775/E), the JSOW single-hoist ordnance loading system (SHOLS) trolley adapter (ADU-783/E), and the CMBRE (AN/GYQ-79).

Transport Adapter

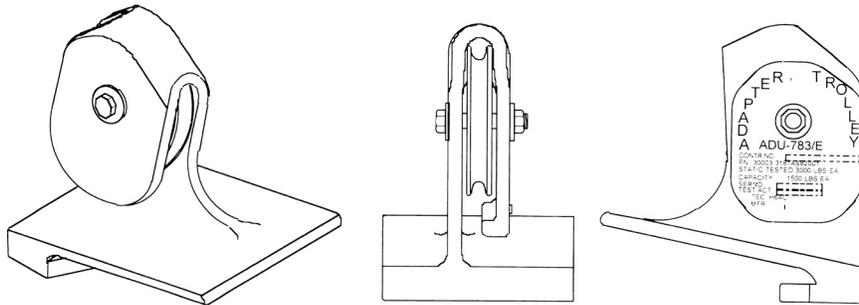

The transport adapter adapts to the AERO-58, which attaches to the MHU-191 or equivalent, and to the MHU-125 (Marine Corps) or other equivalents.

Transport Adapter (ADU-775/E).

Trolley Adapter

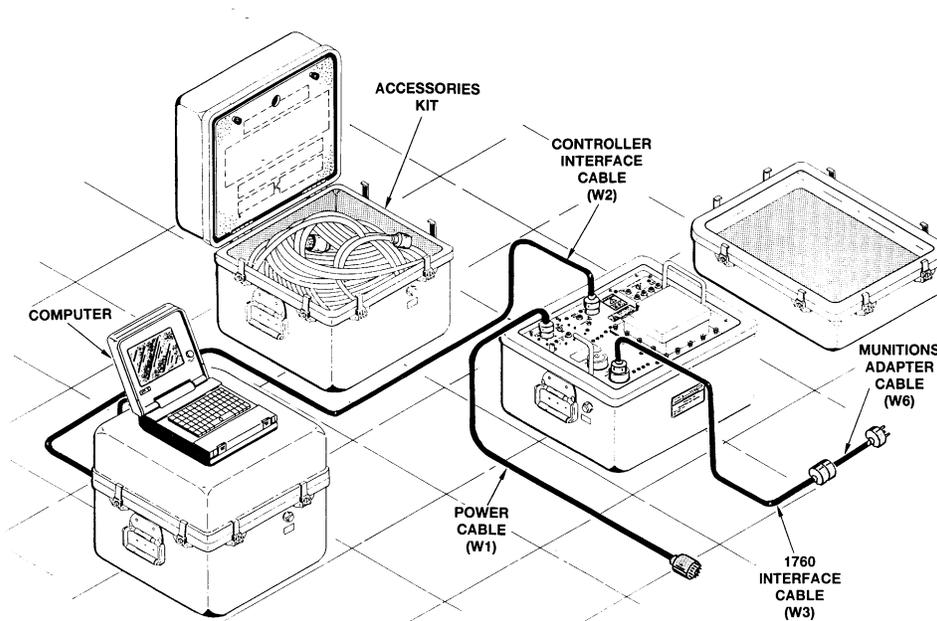

The SHOLS trolley adapter attaches to the JSOW hardback/wing cover and is used in conjunction with SHOLS when loading the F/A-18C/D.

. Single-Hoist Ordnance Loading System (SHOLS) Trolley Adapter (ADU-783/E).

Common Munitions BIT Reprogrammable Equipment (CMBRE)

The CMBRE provides the capability to verify serviceability of a weapon by initiating a built-in test (BIT). The CMBRE also provides a capability for reprogramming of OFP software. The unit is designed to withstand carrier environments and is approved for carrier operations.

Common Munitions BIT Reprogrammable Equipment (CMBRE) (AN/GYQ-79).
